Conn Maciel Carey LLP Expands West Coast Presence with the Opening of a Third California Office in Walnut Creek

Conn Maciel Carey LLP ("CMC"), a national boutique OSHA/MSHA & Workplace Safety and Labor & Employment law firm, is pleased to announce the opening of its new office in Walnut Creek, California – the firm's third office in the state – marking a significant expansion of the firm's presence in the Golden State. Located in the heart of the East Bay, the new office strengthens CMC's ability to serve employers across Northern California, from the Bay Area to the Central Valley and the Sacramento region.

The expansion reflects growing demand from employers navigating the state's uniquely demanding workplace safety and employment laws.

"California has long been at the leading edge of workplace safety regulation and enforcement," said Eric J. Conn, Chair of the firm's national OSHA Practice. "Expanding our presence in Northern California puts our team closer to the employers we serve and strengthens the national perspective we bring to every client, especially those with operations in California and throughout the West Coast."

"I am thrilled to open our new office and continue growing CMC's California Practice," said Rachel L. Conn, Chair of the firm's California Practice. "California employers face some of the most complex laws in the nation, from Cal/OSHA's workplace violence prevention and heat illness requirements to challenging wage-and-hour obligations. Having a dedicated Walnut Creek office lets us meet clients where they are and partner with them on the ground, whether they are preparing for an inspection, contesting a citation, or building lasting compliance programs."
