FOR IMMEDIATE RELEASE

Rachel Conn Appointed to the California Lawyers Association's Labor and Employment Section Executive Committee

SAN FRANCISCO, CA (October 28, 2026) – Conn Maciel Carey LLP ("CMC"), a national boutique OSHA/MSHA • Workplace Safety and Labor and Employment law firm, is pleased to announce that Rachel Conn, a partner and the chair of the firm's California Practice based in the San Francisco office, was appointed as a member of the California Lawyers Association's (CLA) Labor and Employment Section Executive Committee. Established in 2018, CLA is a nonprofit, voluntary bar association serving over 45,000 licensed attorneys throughout California.

"CLA's Labor and Employment Section Executive Committee plays a vital role in advancing the practice of labor and employment law throughout California, and I am grateful for the opportunity to serve alongside such a talented and dedicated group of practitioners," said Conn. "I look forward to contributing to the Committee's mission of providing education, resources, and leadership to attorneys across the state, while helping address the evolving challenges and opportunities facing employers, employees, and the legal profession. As one of the only attorneys on the committee with experience in California Occupational Safety and Health, I am eager to help educate California practitioners in issues related to workplace safety in the state."

Conn's practice focuses on Occupational Safety and Health compliance and litigation, including inspections, investigations and enforcement actions involving Cal/OSHA, Federal OSHA, and other State OSH Plans. She has extensive experience working with employers on some of the most novel and complex OSHA and Cal/OSHA issues.

CLA is a member-driven, mission-focused organization dedicated to the professional advancement of attorneys practicing law in the State of California. CLA's extensive membership represents the vast diversity of California's legal community and the various areas of law practiced throughout the state.
